Q: Java 8 functional interface to define logic to compare two dates I'm trying to port some legacy code to Java 8. however I'm stuck with a logical problem I don't understand. I need to compare two dates using a comparison predicate, however I need to define the logical operator used to do the comparison. public class Comparison { public static final Comparison CONTAINS = new Function() { @Override public Boolean apply(LocalDate first, LocalDate second) { return (first == second)? true : false; } }; public static final Comparison GREATER\_THAN = new Function() { @Override public Boolean apply(LocalDate first, LocalDate second) { return (second > first)? true : false; } }; public static final Comparison GREATER\_THAN\_OR\_EQUAL = new Function() { @Override public Boolean apply(LocalDate first, LocalDate second) { return (second > first || first == second)? true : false; } }
