What's new in Fifa 22:

- **SEN-built ball physics and a host of new playmaking options**
 - **Under the hood, we've rebuilt the ball physics to match your head-to-head effort on the pitch, and ensure that your ball skill affects positioning, movement, and momentum. With the new pass animations, delicate touches, and active strength, you'll leave your mark in the most intricate passages of the pitch.**
 - **At your disposal in Ultimate Team is a new suite of technical skills, from improved missile headers to dodges and whipping crosses. In FIFA 20, hits and passes were all about speed and power, but this year, we want to put players in your hands and let you dictate the pass, the touch, and the result.**
 - **Enter the new legendary modes, and you will experience real football the way it should be played. Create your own UEFA Champions League, or chase the European Cup by playing your way through the competition. It's no longer just about winning the game; your club and club crest are as important as your player's ability on the pitch.**
- **Gangster World Cup - Solo, two-player co-op or play head-to-head with up to 3 friends on the most popular modes from the PC (and Xbox One and PS4)**

-
- **This is where we take the World Cup to new heights. Gangster World Cup is a fresh, localised take on the usual suspects. Your journey to glory is in the hands of the gangster life you create.**
 - **You'll face off against mafia based squads who can control the city and population using bribes and threats. Will you be the corrupt slum lord, or an upstanding businessman put in place to save a corrupt city from itself? The choice is yours.**
 - **Play Gangster World Cup through gangs competing for a city, or do battle by yourself in a brawl to steal that city from the much larger gang's grasp.**
 - **Featuring new game modes, Squad Battles, Game Modes, one-off challenges, and in-game events.**
 - **Home Improvements**
